v.  
Carlos Bayon #2B198055

18-CR-163  
FPG

Motion to suspend Probation

Defendant hereby request the suspension  
of his probation based on the fact that  
Defendant's original PSR recommended  
18 to 24 months of total incarceration.  
Defendant has served over 41 years as  
of today and every possible avenue  
for relief had been denied to him,  
including compassionate, over 65 years  
old, 2/3 of sentence and First Step  
Act. Defendant has effectively served  
his probation already incarcerated.  
Home confinement also denied.

Under Penalty of Perjury
